

## Vaccine Excipients 2022/23

### Sanofi Quadrivalent Influenza (split virion, inactivated)

Trace Components
Eggs (ovalbumin, chicken proteins)
Neomycin
Formaldehyde
Octoxinol-9
Excipients
Sodium chloride
Potassium chloride
Disodium phosphate
Potassium dihydrogen phosphate
Water for injections

### Astra Zeneca Fluenz Tetra Nasal Spray (live, attenuated)

Trace Components
Eggs (ovalbumin)
Gelatin
Gentamicin
Excipients
Sucrose
Dipotassium phosphate
Potassium dihydrogen phosphate
Gelatin (porcine, Type A)
Arginine hydrochloride
Monosodium glutamate monohydrate
Water for injections

### Mylan Influvac Tetra (surface antigen, inactivated)

Trace Components
eggs such as ovalbumin or chicken proteins
formaldehyde
cetyltrimethylammonium bromide (CTAB)
Polysorbate 80
Gentamicin
Excipients
Potassium chloride
Potassium dihydrogen phosphate
Disodium phosphate dihydrate
Sodium Chloride
Calcium chloride dihydrate
Magnesium chloride hexahydrate
Water for injection
