Transition Year Programme & Subject Choices for September 2022

Dear Parent/ Guardian,

As your daughter progresses in her 3rd Year studies and we move towards the latter stages of the Junior Cycle programme, I am writing to highlight two important dates for your diary;

1. Transition Year Information Night for current 3rd Years on February 8th at 7:00pm.
2. 5th Year Subject Choices (including LCVP) Information Night for current 3rd & Transition Years on February 15th at 7.00pm.

Parents **and** students should both attend the meetings.

At these meetings information regarding programmes, subjects and the application process will be outlined and explained by our Programmes Coordinator, Ms. Margo Whelan, (Transition Year) and our School Guidance Counsellor, Ms. Aisling McDonald (5th Year Subject Choices).

If your daughter is considering applying for Transition Year 2022 we strongly advise attending both information sessions as there is an application process attached to TY. If the Transition Year programme is oversubscribed, your daughter's application may not be successful. In this instance they would progress to 5th year.

Equally, for 5th year, when making subject choices, the process must be completed via our school's VS Ware portal and detailed instructions will be provided at the meeting.

Both meetings will take place online, via your daughter's Microsoft Teams.

If you and your daughter have already decided, definitively, that they will move directly into 5th Year from September 2022 then you do not need to attend the Transition Year Information Night on February 8th. However, at this stage we would encourage everyone to keep their options open and attend both information sessions.

I look forward to your attendance.

Yours sincerely,

Kiera O'Sullivan
